

Lisa Goodman

Chapter Lead & Senior Enterprise Lawyer, Telstra

Lisa started at Telstra as a secondee from King Wood and Mallesons, and quickly discovered that she loved working in-house, with its speed and commerciality. At Telstra she's had a number of roles, including advising on consumer and enterprise products, as well as a 6 month commercial secondment (which she highly recommends as a tool to better understand the business). She is currently a Chapter Lead & Senior Enterprise Lawyer at Telstra, and provides advice on a variety of products including Internet of Things, Mobiles, Data and Telstra's AI Joint Venture, Quantum Telstra. She also supervises and mentors junior lawyers, and is passionate about equality.
